Recent Advances in Nonlinear PDE (UNE July 16-21, 2006): Front Page

General Information

This is a joint workshop of

- The Australian Mathematical Sciences Institute (AMSI) (principal sponsor)
- The University of New England
- The University of Sydney

to celebrate the 60th birthday of Professor Norman Dancer (FAA). It is to be held at The University of New England in Armidale, Australia from 16-21 July 2006.

Specific topics include: Nonlinear Partial Differential Equations, Calculus of Variations, Topological Methods in Nonlinear Analysis, Harmonic Analysis and Dynamical Systems.

Limited funding is available for partial travel and accommodation support of early-career researchers (including PhD students) from AMSI member institutions (please contact the organisers for further details).

The conference was a great success with 40 Participants from about 10 countries and a large variety of talks. Also look at the News Item from the University of New England.

Organising Committee

Daniel Daners (University of Sydney)

Yihong Du (University of New England)

Chris Radford (Memorial Univ. Newfoundland, Canada, formerly Univ. New England)

Shusen Yan (University of New England)
