25 September 2025

The Faculty requirements which must be met include:

- have qualified for or be a graduate with a Bachelor of Science degree or equivalent
- have completed a relevant major (i.e. minimum of 24 credit points of 3000-level units of study) relating to the intended Honours discipline;
- have achieved a Weighted Average Mark (WAM) of at least 65.00 or have a credit average (65.00) in 48 credit points of relevant 2000-level and 3000-level units of study; and
- *securing the agreement of a supervisor* - the proof is the expression of interest form

The Faculty of Science Honours application deadlines are

- 15 January 2026 for Honours commencement in Semester 1, 2026;
- 25 June 2026 for Honours commencement in Semester 2, 2026.

No application will be accepted after the deadline.

An Honours year in Data Science involves

- four 6CP courses (worth 50% of the final mark) and
- and a project (worth 50%) - 10% of this mark is for the oral presentation and 90% for the thesis (reviewed by 3 markers).
